NOTICE OF CITY OF ELK RIVER RECALL ELECTION

Notice is hereby given that pursuant to resolution of the following taxing district, the following election will be conducted for the purpose of voting upon the question for the district as follows:

Registered electors of the City of Elk River, have petitioned that Mayor Dave Brown, be recalled for the following reasons:

1. He conducts himself inappropriately. Continuously seen intoxicated in public and bragging about it. 2. He's loaned out city equipment in two instances, without proper permission as stated in the city's ordinance resolution. 3. He was asked by residents to contact the Sheriff regarding public safety matters. He didn't follow through in the promised timeline. Rather, several residents contacted the Sheriff instead to get extra patrol. Mayor Brown has been heard several times saying he doesn't want police presence in town. 4. He assured a resident that he would be to their house within 2 days after a council meeting to discuss a water line issue. He finally showed up a few days later, however, the issue sat unresolved. The issue caused water to flow in their basement for several weeks. 5. He has forbidden one employee from attending the council meetings and has forbidden any employee from talking with council members. His intent is to give false information to the council. The reason for this is unknown, but has caused major discord within the town. 6. He's known about a mold issue in a city rental house for months and kept it from the council. This affects the health of the family living within.

Mayor's response to the above allegations:

I always make decisions in the best interest of the City. 1. Allegation is untrue. 2. I properly authorized use of City equipment to repair city sidewalk and runoff damage to RV Park. 3. I support Sheriff's patrols. I called the Sheriff the day of the Meeting, but he was dealing with an emergency situation. He got back to me two days later. Deputies have done a great job patrolling weekends. We've posted 15 mph signs throughout town. The Sheriff is repairing a digital speed sign and assigning it to us to help with speeding. 4. Water problem was dealt with promptly. Myself, employees and two others went to the residence to determine the problem. Water was diverted away from two houses until winter let up and a permanent solution was done. 5. Some projects are under a time restraint, only one employee needs to report at the meeting. No intent to give false information. As Mayor, I'm the direct supervisor of City employees. The Council and employees should bring concerns to me instead of tying up the employees' time. 6. Mold issue notification came two days before the council meeting and it was determined not to be harmful.
